Corona-safe ramadan

1. Eat outside, or ventilate the rooms you are using at least once every hour.

2. Wash or disinfect your hands.

3. Avoid multiple people touching the same cutlery, bowls, dishes, jugs and so on.

4. Use disposable paper towels in the bathroom.

5. Avoid shaking hands or hugging, and keep as much distance as possible.

6. Get tested regularly and see as few different people as possible.

Happy ramadan
